September 23, 2019

Dear Parents/Guardians,

As we started last year, our students and staff continue to work diligently preparing for crisis situations that could arise. One of these is an Enhanced Lockdown Drill, which will occur on the morning of October 3rd your child will be participating in an exercise where there will be an announcement made that an armed intruder is in the building and to implement ALICE. Everyone in the building will be participating, practicing what they would need to do in a real life situation. They will also practice if an intruder would break through their door. There will never be, at any time, an actual intruder, just directions over the intercom explaining what is happening. Once they have practiced this, the class and teacher will discuss what could be done to improve for the next time a practiced drill is conducted.

Thank you for working with us as we practice this very valuable training. This will better prepare our children if there ever should be a time that training like this should ever be needed.

If you have any questions about our Enhanced Lockdown Drill or about safety measures we are implementing, please call or email me, I would be happy to help you any way I can.

Sincerely,

Stephanie Carl
Elementary Principal
