

WVSD Remote Learning Asynchronous Participation

Educational Expectations for Asynchronous Remote Online Learning Plan:

Students will engage DAILY in high levels of rigor and relevance through a collaborative and personalized learning experience. Daily learning activities may be completed outside the normal school hours, but must be submitted by assigned due dates. Although students are not required to attend live instruction, live instruction may occasionally be offered, as well as recorded sessions by teachers. In general, teachers will record their lessons and post on Google Classroom along with assignments.

Students attending in-person or asynchronously will experience the same classroom content as other students. If students are not successful with remote learning, we may recommend they return to in-person instruction.

Special Education:

Individual Education Program (IEPs), Gifted Education Plans (GIEPs), and/or 504 Plans continue to be developed and implemented across all settings and special education programming and related services will continue to be provided revising current IEPs to reflect modified learning environments, while maintaining FAPE.

Technology Support:

All students will receive a Williams Valley School District issued Chromebook (when they arrive from the vendor).

Instructional videos for Google Classroom will be available on WVSD social media sites and the website. Anyone needing assistance with Google Classroom access or online access in general, please contact the technology department at 717.647.2167 x 1400 or email at WVSDmail@wvschools.net.
